IN-CALL SCREEN

# Custom User Experience

## Flexible User/Group Profiles

## Home Screen Configuration

**Header Displays Line-in-Use as well as Line**

**Share or Dedicated Line Appearance**  
(Set in PBX – Call Routing > Directory)

**Dashboard: Line/Extensions/Buttons**  
(Pushed from the PBX)

**Dashboard: Workforce Connect Voice Client**  
(Customizable voice feature action buttons)

**Launch On-Device Android Applications**

**Footer: Most Common / Used**

# Dashboard Configuration

```

Dashboard>
<Columns>4</Columns>
  <Button>
    <title>Speed Dial #1 </title>
    <action>SPEED_DIAL</action>
    <value></value>
    <enabled>true</enabled>
    <confirm>>false</confirm>
    <description></description>
    <icon><icon>
  </Button>
Dashboard>
  
```

Defines buttons in the screen's dashboard area and their layout on the Workforce Connect client screen

## In-Call Screen Customization

# In-Call Configuration Example

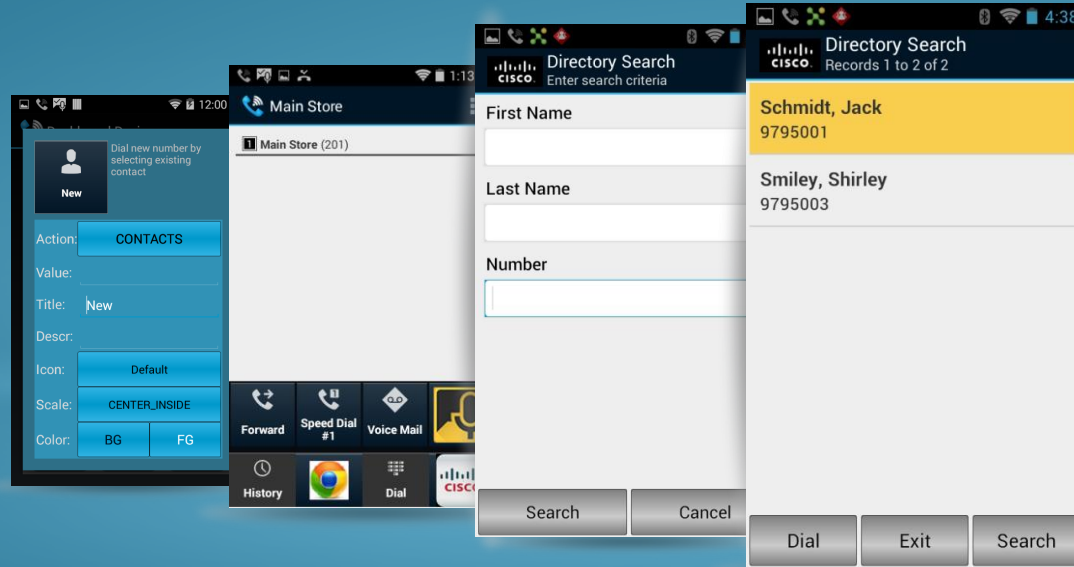

```

<CallButtons>
  <Button>
    <title>Add Call</title>
    <action>ADD_CALL</title>
    <value></value>
    <enabled>true</enabled>
    <confirm>false</confirm>
    <description></description>
    <fg_color>#FFFFFF</fg_color>
    <icon>Default</icon>
  </Button>
</CallButtons>
  
```

## VOICE

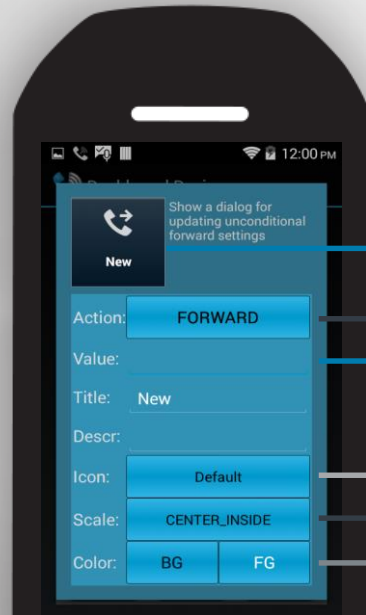

# CUCM User Directory

- Custom button to display PBX User Directory
- Value is: <https://X.X.X.X:8443/ccmcip/xmldirectoryinput.jsp>

## In-Call Footer Configuration

```

<Footer>
  <Button>
    <title>Redial</title>
    <action>REDIAL</action>
    <value></value>
    <enabled>>true</enabled>
    <confirm>>false</confirm>
    <description></description>
    <fg_color>#FFFFFF</fg_color>
    <icon><icon>
  </Button>
</Footer>

```

- Defines the buttons, or soft keys, on the optional footer section of the client screen
- Buttons are listed in the order they appear on the screen

# Shared Device Login Options

- 1 User selects their profile from a scrollable menu
- 2 User clicks on their role
- 3 The WFC Client downloads the profile and PBX information from the TFTP server
- 4 WFC Client registers with the PBX
- 5 When user is done with their job, they log out
- 6 Scrollable menu reappears for the next user

REMOVING COMMUNICATION BOUNDARIES

# PTT PRO

## Introduction

### Encrypted Communications

- Push-To-Talk (PTT) Voice
- Multi-Media Messaging

### Flexible Delivery Model

- Network/Carrier Agnostic
- Multiple Language Client

### Location Services

- Live Position
- Historical Position(s)

### Multiple Platform Integration

Software as a Service (SaaS) or  
On-Premise Options Available

User Management Web Portal

# Calling Features

## Private Calling

- Initiate a secure voice session to a single subscriber in a contact list

## Group Calling

- Initiate a secure call to a preconfigured group of users

## Ad-hoc Group Calling

- User selects various other Users in a contact list to establish an instant group call

## Barge & Alert Calling

- Barge Calling for urgent communication
- Alert Mode for non-critical communication

## Re-Join on Group Calls

- Users can Re-Join ongoing group calls
- Users can Late Join group calls

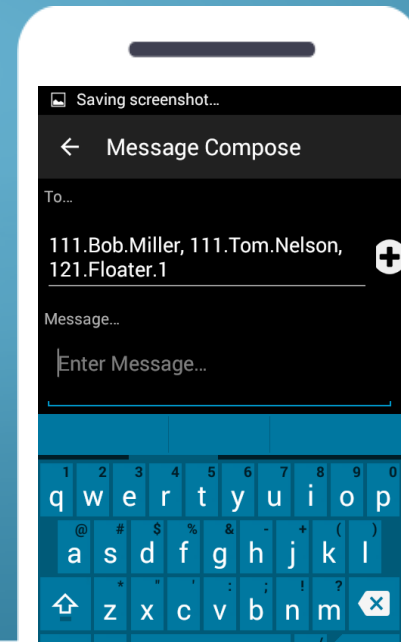

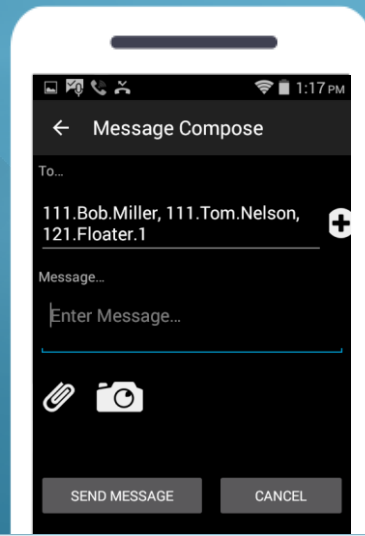

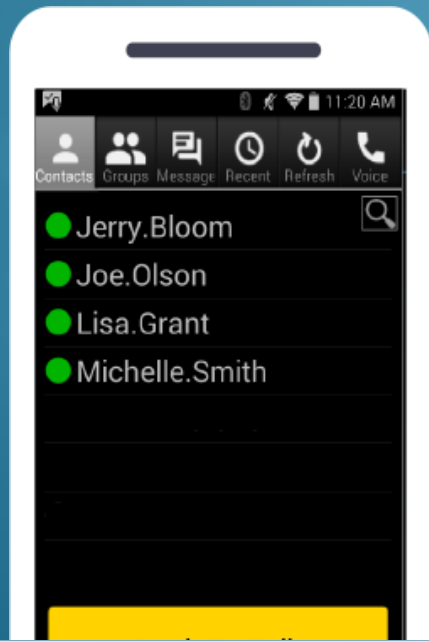

## Priority Call Override

- In-Call Talker Override for designated Users
- Priority override of ongoing PTT calls

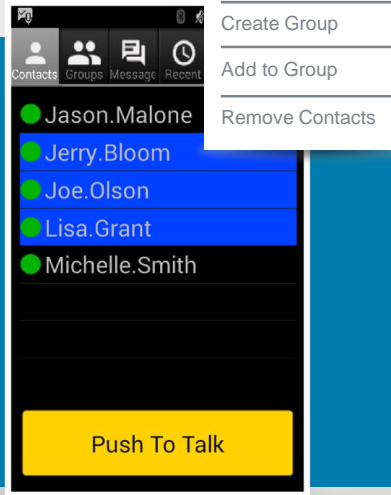

# Private Messaging

Create and receive secure text messages to or from other individuals.

# Group & Ad-hoc Group Messaging

Create a secure text message that is sent to multiple users at the same time or create an ad-hoc group and send messages.

PTT PRO

# Image Attachment

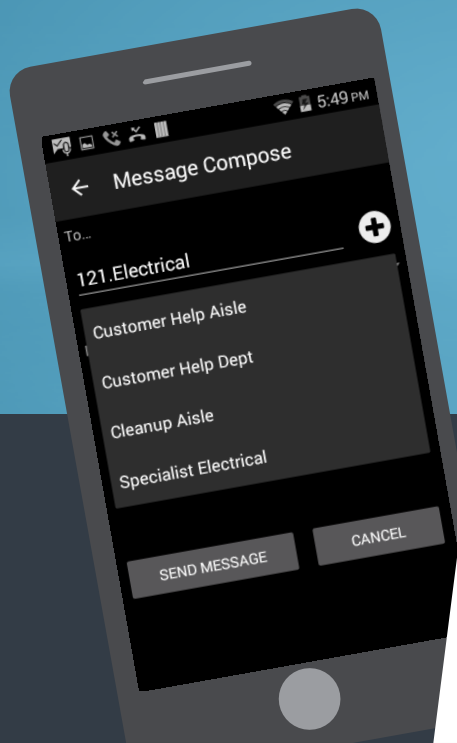

Attach a picture or image to an individual or group message.

PTT PRO

# Pre-Configured Messaging

**Respond or send a pre-configured message.**

(Support on Apple will be released in 1H2017)

# Presence Features

Status for each subscriber indicates availability.

## Contact Presence Indicators

-  Contact is available
-  Contact is on a call
-  Contact is in Do Not Disturb (DnD) mode
-  Contact is in silent/vibrate mode
-  Contact's device is off or out of coverage area
-  Contact's device is signed out of Zebra PTT
-  Pro Contact is blocked
-  Contact is not responding to Zebra PTT Pro communication

## Contact Presence Indicators

-  Group is not active
-  Group is active in call
-  Group is blocked
