At the heart of Document Cloud is Acrobat DC, the world's best and most trusted PDF solution; Adobe Sign, the leading e-signature solution that allows anyone to sign and send documents from any device; and powerful companion mobile apps. Document Cloud offers integrations with industry leaders like Microsoft, Salesforce, Workday, ServiceNow, Nintex and Box, so people can work the way they're accustomed to working.

- 250 billion PDFs were opened in Adobe products in the last year.
- 8 billion electronic and digital signature transactions were processed through Adobe Document Cloud in the past year. More than 50 percent of the Fortune 100 use Adobe Sign.

- Documents created, signed, shared, and stored in Adobe Document Cloud drive a 90% cost savings and 91% reduction in environmental impact compared to paper-based processes.

Creative Cloud

Creative Cloud delivers the world's leading creative desktop tools, mobile apps, and services such as Adobe Stock images. It connects them seamlessly together with their assets through CC Libraries, enabling users to work effortlessly across desktop and mobile devices for connected creative workflows. Featuring apps such as Adobe XD, Photoshop, InDesign and Illustrator, Creative Cloud helps people produce their best work—and the value of membership increases all the time through exclusive product and service offerings and feature updates.

- Over 90% of the world's creative professionals use Photoshop.
