## AVAYA ONE-X® DESKPHONE VALUE EDITION

Deliver basic communications and convenient digital features at an attractive price point. These phones are ideal for enterprises and call centers alike, and can be deployed alongside other Avaya phones. The 1600 Series IP Deskphones combine the features of traditional and IP desk phones, delivering capabilities often found in higher-priced devices.

### 1608, 1608-I\* IP Telephones

Avaya one-X is a portfolio of communications solutions that deliver a powerful and consistent communications experience for the end user – across a variety of devices and interfaces. Avaya one-X solutions provide Intelligent Access to communications driving enhanced productivity and competitive advantage.

Avaya one-X Deskphone Value Edition is a family of cost effective IP Telephones that deliver familiar features at an attractive price point for the customer with basic communications needs.

Designed with the reliability you expect from Avaya, one-X Deskphone Value Edition telephones provide critical features and capabilities not often found in competitively priced models. Avaya one-X Deskphone Value Edition combines traditional telephone features such as LED lights and fixed feature buttons (e.g. conference, transfer, hold) with the latest in user experience features such as softkeys, a navigation wheel and a context sensitive user interface in select models. It also offers as a standard: 2-way speakerphones, backlit displays and multi-line capabilities. Avaya one-X Deskphone Value Edition models feature a stylish design and are a sharp addition to any retail store, branch, or corporate office.

The Avaya 1608 IP Telephone is designed for the Everyday user. Everyday users typically rely on several forms of communication including voice and

email – and while they require a quality telephone, they rarely receive more than five or six calls per day. Cubicle workers and sales staff within a retail store are examples of Everyday users for whom the 1608 delivers a productivity-enhancing telephone.

The Avaya 1608 supports 8 line appearances/feature keys. Each of the buttons includes dual LED's (red, green) providing explicit status for the user. For a familiar look and feel, the 1608 includes several fixed feature keys for common telephone tasks including conference, transfer, drop, hold, mute. In addition, the 1608 includes a high quality full duplex speakerphone, and supports a broad portfolio of Avaya wired and wireless headsets through its integrated headset jack.

The 1608 features a context sensitive user interface along with three softkeys and a four-way navigation cluster – ideal for scrolling through the local contacts list or call logs. The display on the 1608 measures three lines by 24 characters and is backlit for easier viewing in all lighting conditions.
